To Whom It May Concern:

After meeting with Michael James and reviewing our energy bills, we knew he and his team could help us to lower our utility costs. The process was simple. He and his team handled everything from the beginning to completion. We could not be happier with the amount of commitment from SM Engineering. We received a substantial refund check within a few short months after our initial meeting. Rooney Grain highly recommends SM Engineering to assist with lowering rates, (and receiving refunds) on your utilities!

Sincerely,

Stacie Zeman
