

SM Engineering
9 9th Ave N
Hopkins, MN 55343

"The biggest challenge to utility costs is not knowing the ins and outs of every detailed charge and being aware of other options. I wasn't sure what future savings would look like but SM Engineering gave us a fair deal in helping us find those savings. After having the utility analysis done it feels refreshing knowing we're receiving the most optimal rates and charges."

A handwritten signature in black ink, appearing to read 'Tim Wiens', written over a horizontal line.
